Re: **Cerro Copper Access Agreement**

- September 13, 1999 letter from Joseph M Grana, Cerro Copper to Ms Kimberly Perry, Solutia, re "O'Brien & Gere Work Schedule" (attached)

Dear Mr. Grana,

It is obvious from our first attempt to perform work on the Cerro Copper property that the 8:00 AM - 5:00 PM time constraint within the current access agreement between Solutia and Cerro Copper is not a practical limitation. Given the extent, type and complexity of Work yet to be performed on Cerro's property, I have requested that Ms Colleen Michuda of Thompson Coburn renegotiate the access agreement between Cerro Copper and Solutia to remove the current time constraint. If Cerro Copper is not agreeable to this request and proposes no acceptable alternatives by September 24, 1999, the matter will be turned over to the U. S. EPA for resolution.

Sincerely,

A handwritten signature in black ink, appearing to read "D. M. Light", is written over the typed name.

D. M. Light

Re: O'Brien & Gere Work Schedule

Dear Kimberly:

On Friday, September 10, 1999, O'Brien & Gere personnel were at our facility working until 7:00 p.m.. I think Cerro has been very gracious about the 24-hr air sampling. I had to work two engineers overtime to cover the time periods that O'Brien & Gere was in our facility. The Access Agreement in Paragraph 6, states that sampling will occur during normal working hours of 8:00 a.m. to 5 p.m..

Since the air sampling is now over, any future sampling must occur between 8:00 a.m. and 5:00 p.m. O'Brien & Gere will be asked to leave promptly at 5:00 p.m..

I know O'Brien & Gere's and your cooperation in this matter will be forthcoming. Please pass along our concerns to Alan Cook at O'Brien & Gere.

Very truly yours,

Joseph M. Grana
Manager of Environmental, Energy
And Health Services Group
